

# A Guide to the SAS<sup>®</sup> Studio 3.8 Documentation and Programming Documentation for SAS<sup>®</sup> 9.4 and SAS<sup>®</sup> Viya<sup>®</sup>

## **A Guide to the SAS Studio, SAS 9.4, and SAS Viya Documentation**

### **SAS Studio Documentation**

SAS Studio is a development application for SAS that you access through your web browser. With SAS Studio, you can access your data files, libraries, and existing programs, and you can write new programs. You can also use the predefined tasks in SAS Studio to generate SAS code.

Use these links to quickly access the content that you need.

<b>Contents</b>	<b>Description</b>
<a href="#">Getting Started with Programming in SAS Studio</a>	Explains how to use the main features of SAS Studio to write a SAS 9 program, correct a syntax error, and save your results in different formats.
<a href="#">SAS Studio: User's Guide</a>	Provides an overview of SAS Studio as well as specific instructions on its use.  SAS Studio includes code snippets for an easy way to write your SAS or CAS code. However, the availability of these snippets depends on what you license and install at your site. To learn more about these code snippets and the SAS products required, see <a href="#">"Working with Code Snippets" in SAS Studio: User's Guide</a> .

Contents	Description
<a href="#">SAS Studio: Task Reference Guide</a>	Provides examples and descriptions for each SAS Studio task.  However, the availability of these tasks depends on what you license and install at your site. To view the requirements for each SAS Studio task, see <a href="#">“SAS Studio Tasks and Associated Procedures and Licenses”</a> in <i>SAS Studio: Task Reference Guide</i> .

## Programming Documentation

In SAS Studio, you can program for a SAS 9 environment or a SAS Viya environment, depending on what you license and install at your site.

Here are some frequently used resources:

Contents	Description
<a href="#">SAS Procedures by Name</a>	Provides quick access to the syntax for SAS and CAS procedures.
<a href="#">SAS Language Elements by Name, Product, and Category</a>	Provides quick access to the syntax for additional SAS language elements, such as data set options, formats, macros, and system options.
<a href="#">Actions and Action Sets by Name and Product</a>	Provides quick access to the syntax for the CAS actions and action sets.
<a href="#">SAS Viya Quick Start</a>	Provides introductory information for new users of SAS Viya.
